DETAILED ACTION

Allowable Subject Matter

Claims 1-15 are allowed. The following is an examiner's statement of reasons for allowance: As noted in the Remarks section of the Amendment, among others, in contrast to the way the prior art would have handled the situation of the context of the other limitations of the claims, the claimed invention does not predetermine the specific services that a client might access.

The meanings of the claims, as noted in the Remarks section, are accepted. Whereas the European Patent Office had proposed the relied (in the previous Office Action of this USPTO) prior art, the Remarks section has explained the patentable differences between the prior art and the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
